

School for Self Knowledge

The *course* is designed for thoughtful men and women who seek a greater fullness of life, a deeper understanding of human existence and the world in which we live, and the art of knowing oneself on all levels.

It establishes a firm basis for stress-free living, clear thought and effective action in our daily life. The scope is comprehensive, highly practical, and refreshingly direct.

The *workshop* provides a practical opportunity to further extend your experience of the subjects discussed in an easy, stimulating, one day programme.

The *School for Self Knowledge* is a wholly independent, non-profit, non-religious organisation established in 1987.
